CLEAN GREENGRILL

Most of our cooking surfaces are supplied with 'GreenGrill coating'. This ceramic coating is made from organic materials and doesn't contain any toxic substances. The CADAC GreenGrill is much more durable and harder than normal non-stick coating. It resists higher temperatures, divides the heat better and holds this heat, so less gas is used while grilling. Cooking tops are very easy to clean with some water and detergent.

SOFT SOAK CLEANING

Durable, easy and hygienic

Environmentally friendly, and sized to perfection, our Soft Soak range takes the hassle out of cleaning. Soaking your grill plate before washing means less time spent on cleaning, and more time for you to enjoy the outdoors. No mess, no fuss!

Prolongs your grill pans Life

By using the soft soak your grill does not get so damaged as traditional scrubs, brushes and chemicals would. The method of leaving the grill to soak in this soft protected environment loosens food and hard to remove grit without the need to scrub and scrape your grills coating off.

Easy Clean

Soft Soaks are Food Grade silicone, the grease and grid just slides off it with the aid of soap. A Hygienic material that lasts.

Fits and protects your grill

Every Soft Soak is specially designed for it's corresponding Cadac grill size. It contains the grill and water perfectly ensuring coverage and complete soak-age.

Stackable and foldable for storage

The uniquely soft but durable rubber allows the product to be bent and warped. The client can wrap it around a grill for storage, or stack it with the others.

How to properly use the Soft Soak with your grill & pans

1. Pour hot, soapy water into Soft Soak
2. Place grill up-side-down
3. Soak for 60 minutes to ensure all the food has lifted properly
4. Easy clean with a cloth

URBAN RANGE

E BRAAI 40 FS

Trendy, portable electric BBQ

Discover the taste & comfort of electric grilling with CADAC's E Braai 40 FS. This electric BBQ is perfect for use on a balcony or in a garden, but it's also easy to transport during holidays with the included carry bag.

The 2.3kW heat coil ensures quick heat up time. A detachable glass ring protects the coil from the cooking fat. With the Auto Grill Temperature control setting you can accurately set the desired temperature. The temperature is not measured as usual underneath the lid, but from the grid itself. The temperature of the E Braai is adjustable from 70 to 270 degrees, which makes it also suitable for slow cooking.

The removable fat pan is dishwasher safe and easy to clean. Four dome vents ensure good air circulation and even heat distribution. The E Braai comes with an accessory stand, a BBQ grid with GreenGrill ceramic coating and a dome. For even more possibilities a BBQ/Plancha, Grill 2 Braai top and pizza stone are available as optional accessories.

CITI CHEF 40 FS

Versatile gas barbecue with wooden legs

The Citi Chef 40 FS is a trendy and versatile barbecue. This gas barbecue on legs is available in 2 colors: Black and Flint Grey. Just like the other Citi Chef barbecues, the Citi Chef 40 FS is a real eye-catcher on your terrace, balcony or in the garden. The legs are made of durable wood from the rubber tree. It is easy to clean thanks to the removable enamelled fat pan. This fat pan is dishwasher safe. The black side tables with hanging hooks can easily be removed for compact storage. The condiment tray offers space for the gas supply, e.g. the Trio Power Pak or the Dual Power Pak.

The Citi Chef 40 FS comes with a pot stand, a BBQ grid and a dome with thermometer. The GreenGrill BBQ grid has a ceramic coating for healthier cooking. Due to the integrated heat diffuser your grid will be evenly heated over the entire surface and give optimal grill results. It can also be used with many optional accessories, such as a paella pan, pizza stone or BBQ Plancha for endless cooking options.

MERIDIAN BUILT-IN

Braai in style

The Meridian Built-in is a stainless steel gas barbecue; this built-in model can be placed on any flat surface. With the side handles you can easily place it in your own outdoor kitchen or in a niche in the garden room. Thanks to the non-slip rubber feet, the barbecue stays in place.

The four burners all have their own automatic ignition and a flame distributor. The flame distributors ensure that the heat is well distributed over the barbecue, but also that no food fat gets on the burners. The Meridian Built-in comes with 3 Thermogrill * grids and a warming rack. The lid is made of double-walled stainless steel for good heat retention and has an accurate thermometer to ensure perfect cooking. The removable fat tray collects cooking residues. After grilling, you can easily remove the tray from the front of the barbecue for cleaning.

CADAC offers various optional accessories for even more possibilities. With the pizza stone you can bake the crunchiest pizzas or focaccia yourself. A rotisserie spit is also available for grilling a whole chicken or turkey.

CAMPING RANGE

2 COOK 3 PRO DELUXE

Convenient cooking

The possibility of discovery is endless with the 2-Cook 3 Pro Deluxe. This stylish gas barbecue is a lightweight unit and is the ultimate table top companion, with two independent burners, each with piezo ignition.

The 2-Cook Pro Deluxe comes with two pan stands, a ceramic coated flat plate and ribbed plate. The stove offers versatile cooking options with an independent non-stick reversible ribbed/flat grill plate and two pot stands. This greatly reduces the heat up time and provides the option of grilling or frying.

Since this product features two independent cookers a pot could be used on the other side while food is being cooked. The flat plate

is ideal for cooking fish, breakfasts and pancakes and the ribbed plate is ideal for grilling meat, fish, chicken and vegetables. The baking plate and grill plate have a GreenGrill ceramic coating.

The gas button protection on this stove ensures that you do not open the gas supply without pressing the button (and then turning it), this is especially handy with small children around. In addition, the rubber feet on the bottom provide extra stability and safety as it prevents the stove from slipping.

You can also use the lid as a windshield; this way the gas flame does not blow out while cooking. After use, you can close the lid again with the handy closing clip.

SAFARI CHEF 30 COMPACT

Compact, Versatile, Lightweight

The Safari Chef 30 Compact is an ultra compact & lightweight gas barbecue. It works directly of a 227gr gas cartridge. Simply place it in the appliance, tighten with the safety clip and start cooking or grilling. The perfect appliance for outdoor activities and camping holidays.

Despite its small size, the Safari Chef Compact is extremely versatile due to the various cooking tops included; a pot stand, BBQ grid, flat plate and pot/lid. Use the pot stand to cook a pot of soup or pasta. The BBQ grid and flat plate have CADAC's GreenGrill coating and are perfect for baking and grilling meat, fish and vegetables. The lid can also be used as a pan and is therefore multifunctional.

The fat pan collects any cooking residues when you use the BBQ grid, but also serves as a wind screen so that the burner does not blow out on windy days. A convenient carry bag is included for easy storage and portability.

CARRI CHEF 50

All-in-one outdoor cooking

The Carri Chef is a luxury all-in-one gas barbecue with a large cooking surface of ø 46cm.

The powerful stainless steel burner together with the piezo ignition ensures you get the desired temperature. With the lid/dome closed, you create an oven, ideal for baking or stewing. The BBQ grid is provided with CADAC GreenGrill coating; this completely PFOA-free, ceramic coating guarantees healthier and cleaner cooking. Thanks to the integrated heat spreader under the grid, the heat is well distributed over the entire cooking surfaces.

Cleaning has also been considered; you only remove the surfaces from the barbecue and clean it with soapy water.

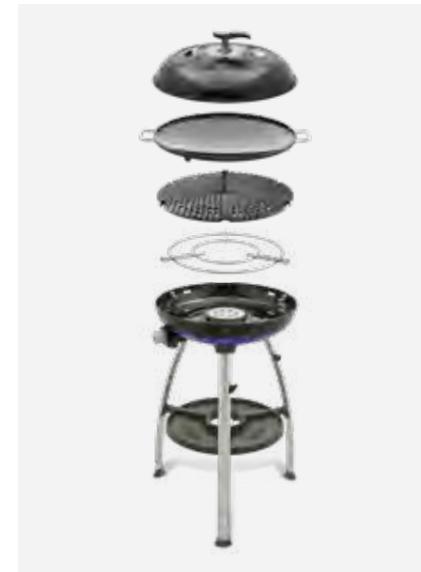

The aluminum legs of the Carri Chef are easy to unscrew and tighten. The condiment tray between the legs offers extra space for barbecuing and ensures that the BBQ is sturdy and stable. The BBQ is easy to assemble, clean and to store in the supplied carrying bags which makes this the ideal barbecue for both the home and to take on vacation.

GAS SUPPLY

TRIO POWER PAK

The CADAC Trio Power Pak and the CADAC Dual Power Pak replace a gas cylinder and regulator. The Power Paks are lightweight, portable and easy to use. The regulator and hose is included. Once you fit the disposable cartridges to a CADAC Power Pak, the LP gas supplies (at 28Mbar or 50Mbar) the camping appliance or barbecue. The universal fitting on the end of the hose is a ¼" BSP left hand thread, so the Dual Power Pak or Trio Power Pak can be used with any brand of camping stove or barbecue.

The Trio Power Pak is driven by 3x bayonet style nozzle valve cartridges of 227g each (not included). This amount of gas will feed a small appliance or barbecue for ± 6 hours. The Trio has a removable back cover. When this is unclipped, the 3 cartridges can be fitted and clipped into the valve. The hose is removable with a CADAC QR/Quick Release connector. All 3 cartridges supply gas at the same time, which assists in cold climates. Includes a convenient carry bag.

Ref. 370

CADAC PRODUCTS THAT CAN BE POWERED BY THE DUAL & TRIO POWER PAKS:

Citi Chef 50, Carri Chef 50, Citi Chef 40, Grillo Chef 40, Safari Chef 30, 2-Cook 2, Skottel® Braai, Grill2Braai and other gas stoves/barbecues.

DUAL POWER PAK

The Dual Power Pak is driven by 2x 445g or 2x 500g EN417 threaded cartridges (not included). Each cartridge can be independently fitted and each gas cartridge feeds the appliance. 1kg gas will supply a small barbecue like the Safari Chef 30 for ± 10 hours.

CLEANING & MAINTENANCE

How do I maintain the CADAC cooking surfaces?

Most of our cooking surfaces (like the paella pan and BBQ grid) have our GreenGrill ceramic coating. Always use wooden or plastic utensils to avoid damaging this coating. Our GreenGrill Brush is perfect for cleaning these GreenGrill coatings.

You can clean the surfaces in (warm) water with a soft sponge or dishwashing brush. You can also use the CADAC barbecue cleaner. Never use scourers or abrasives.

How do I maintain my CADAC barbecue?

To enjoy your CADAC product for a long time, we advise you to thoroughly clean it after each use. Use a full-length, UV-resistant cover when you do not use your BBQ.

Note that our covers are water resistant but not 100% waterproof. If you do not use your BBQ for a longer period, store your barbecue in the storage bags (camping BBQ's) or put it in a garage or shed underneath a decent BBQ cover.

How do I clean my Skottel?

The Skottel stays clean by using CADAC non-stick liner; after use, the liner can be cleaned by simply rinsing with hot water or in a dishwasher. If you don't use the liner, you can clean the Skottel by boiling some water with detergent in it. After that the Skottel can be easily cleaned. It can also be easily cleaned with the CADAC Cleaner.

How do I clean my BBQ grid?

By using the Soft Soak your grill does not get so damaged as traditional scrubs, brushes and chemicals would. The method of leaving the grill to soak in this soft protected environment loosens food and hard to remove grit without the need to scrub and scrape your grills coating off.

How do I clean the fat pan?

To enjoy your CADAC product for a long time, we advise you to thoroughly clean it after each use. Use a full-length, UV-resistant cover when you do not use your BBQ.

Note that our covers are water resistant but not 100% waterproof. If you do not use your BBQ for a longer period, store your barbecue in the storage bags (camping BBQ's) or put it in a garage or shed underneath a decent BBQ cover.

How do I perform a leak test?

When you connect a hose to your bbq, we recommend to perform a leak test. Always do this outdoors! Prepare a mixture of water (1 part) and detergent (1 part) and spread it on the gas connection. Then turn the gas on. When bubbles appear on the connection, there's a gas leak. You must reconnect the hose. Always close the gas supply of the cylinder/cartridge before you close the gas supply of your barbecue. If the bubbles appear again in a second test, please contact your CADAC dealer.
