Passion for cooking

We've been producing and shipping grills, fire bowls, garden stoves and outdoor cooking equipments for over 7 years. Currently, the Cook King brand can be found in Europe, Asia and Africa.

This is how we share our passion for cooking. Our aim is to make our customers feel the joy and pleasure of preparing and having outdoor meals together. We design our products so that they help throw unforgettable parties and let our customers enjoy the time spent with their family and friends.

What motivates us the most? The vision of you standing in your garden and watching tremendous fun going on around our fire bowls and grills. We want you to be able to say the following in such situation: This is exactly what our home is like: warm, safe and reliable.

HANDMADE is a guarantee of tradition and quality!

How does the production process ensure the highest quality of our products?

All Cook King products are hand-made. The massive structure of our products includes numerous elements that are matched and connected to each other properly.

We only use materials from European steelworks holding necessary certificates and approvals confirming their quality and origin.

Our products are made of thick steel elements (2-5 mm), due to which we can guarantee their excellent condition and durability.

HANDMADE - tradition and quality guaranteed!

Why you should choose Cook King?

We offer exclusivity to our distributors

- Become our exclusive distributor and enjoy full support from our brand. By gaining full freedom to operate on specific market, you can attain competitive advantage and increase your profits. Your marketing efforts won't be vain, because there will be no other competition.

0,05% - customer complaints rate

- Low rate of customer complaints, which equals 0,05%, ascertains us, that nearly all customers will be satisfied with their purchase. Moreover, if there is no need for creating another department for complaints management and after-sales service, you will be able to focus on different aspects of business, saving your time and money.

Remarkable patterns and design of the products

- Unique patterns and design of our products guarantee that your business will stand out from the rest of the competition. Due to this fact, you - our exclusive distributor - are able to offer something special to your customers.

Wide range of equipment and accessories

- By providing a wide range of equipment and accessories, we solve the problem of one-off deals and manage to retain customers for long. Our research indicates that over 60% of customers decides to supplement their previous purchase with more accessories within next season, which means potentially regular source of income for the distributor.

High margin

- Our products are the perfect opportunity for exclusive distributor, to increase their profits. We offer high margin that allows you to run stable and profitable business.

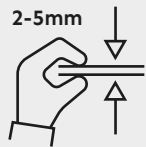

Professional marketing materials: photographs, descriptions and films

- Our company guarantees professional marketing materials, including photographs, product descriptions and films, which minimises involving distributor in the process of launching a new product. The materials are updated and extended every year. Responsibility for marketing materials lies with professional advertising agency.

HAND MADE and MADE IN EUROPE production

- HAND MADE' products, as well as products 'MADE IN EUROPE' are trends, which have been in demand for a long time. Customers who were informed about these features become aware of high-quality of the assortment. Due to this fact, they accept higher selling price, knowing that the product is unique and worth its price.

We use 2,0-5,0mm thick steel for the production

- Thickness of steel is one of the key characteristics of our products, which determines its long lifespan and durability. It results in minimal percentage of complaints and customers' dissatisfaction.

Fully welded structure of our products

- Our products don't require assembly, which enables customers to use them right after unpacking. Due to fully welded structure, we eliminated the problem of putting elements together by tightening the screws and the problem of weakening its structure after some time of exploitation.

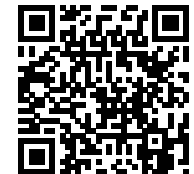

ECO products renewable in 99,5%

- Our brand represents not only high-quality and durability, but also ecological responsibility. We make all our products out of 100% renewable steel, which enables recycling these products in 99,5%. With this solution, our products fit into current trends and meet our customers' expectations. This is how we care about our environment, ourselves and future generations.

About Cook King products

What are the characteristics of our products?

It is the quality of Cook King that our customers value us most for. We owe our reputation to the simple and timeless style of our products, solid workmanship and comfort of use. Thanks to these features our customers can enjoy our products for many years.

What is the secret of the highest quality of Cook King products?

We believe that you have to deliver excellent quality as early as at the design stage in order to provide a high-quality product. Each Cook King product is based on our own product design made from scratch. We carefully design our products so that people from all over the world who love cooking and meeting friends outdoors can enjoy their time together. That is why our designer always looks for the best solutions to make his products stylish, solid, safe and easy to use. Once the design is ready, we start with the production process. Each product is made by hand with the utmost care.

It is our designer who gives our brand its character!

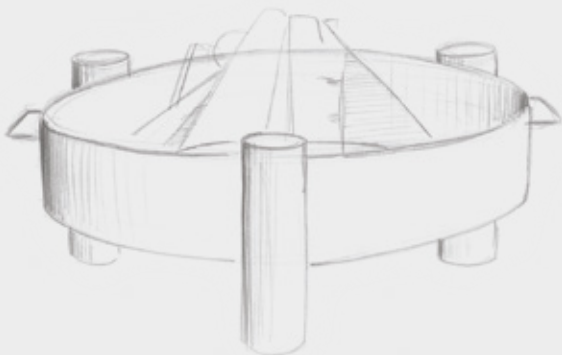

All our products are designed by one man. Thanks to his passion, commitment and years of experience each of our products is planned to the smallest detail.

He travels all around the world finding inspiration in different cultures, due to which Cook King products are popular and appreciated by customers from various countries.

When starting a new project, he keeps asking himself: How will the product look in a garden? How can I make it solid, stable and safe? Will it be easy to use? Will it be a pleasure to use it?

Whenever asked about the most important aspects of designing a product, he says: **QUALITY, STYLE AND DURABILITY.**

And this is what Cook King products are all about: high-quality grilling tools thanks to which customers all over the world can enjoy dishes flavored with wind and fire.

NEW

Now it's possible to personalize **Your Fire Bowl**

We are giving you the opportunity to create your individual design of a firebowl adapting it to the current market trends, the image of your company and the requirements of customers.

The edge of the product will be cut out of a thick sheet of steel by a CNC laser and welded to the bowl composing a massive construction.

This project gives you the unrestricted opportunity to develop your own design.
The only thing that can limit the project is your own imagination!

IDEAL PRESENT! You can create **YOUR FIREBOWL**

- with a company logo
- with a flag of a country or a city
- with the flag of your favorite sports club
- with any advertising slogan
- with a name
