VICTORINOX

**2021**  
**SWISS ARMY KNIVES**

# COMPANIONS YOU CAN COUNT ON THE DNA OF OUR BRAND

The little red pocket knife with the Cross & Shield emblem on the handle is an instantly recognizable symbol of our company. In a unique way, it conveys excellence in Swiss craftsmanship, as well as the impressive expertise of more than 2,000 employees worldwide.

The principles by which we do business are as relevant today as they were in 1897 when our company founder, Karl Elsener, developed the “Original Swiss Army Knife”: functionality, innovation, iconic design and uncompromising quality. Our commitment to these principles for more than 130 years has allowed us to develop products that are not only extraordinary in design and quality, but also in their ability to serve as reliable companions for life’s adventures, both great and small.

Our brand is recognized globally as a symbol of Switzerland's quality thanks to our Swiss Army Knife. Its innovative, unique design has been honored over the years with a wide range of awards and is firmly established in the exhibitions of prestigious museums all over the world. The pocket knife range currently encompasses over 400 models with up to 73 different functions.

# HISTORY

## 1884 – 1897

- 1884 Karl Elsener I opens a knife cutler's workshop in Ibach-Schwyz. His mother Victoria actively supports him in his endeavors.
- 1891 Karl Elsener I establishes the Association of Swiss Master Cutlers. As a result, he is able to deliver the first major supply of soldier's knives to the Swiss Army.
- 1897 The original Swiss Officer's and Sports Knife is patented. It is known around the world today as the "Swiss Army Knife".

## 1909 – 1945

- 1909 In memoriam of his mother, Karl Elsener I chooses her first name Victoria as the brand name and registers the emblem with the cross and shield as a trademark. Today it is a registered trademark in over 120 countries.
- 1921 The invention of stainless steel (Inox) is a highly significant development for the cutlery industry. The combination of the two words "Inox" and "Victoria" results in today's company and brand name – Victorinox.
- 1931 Carl Elsener II introduces automation. In 1931, Brown Boveri is commissioned to set up the world's first all-electric hardening plant in Ibach. This guarantees that all knives are of a consistent high quality.
- 1945 US soldiers stationed in Europe after World War Two buy it in large quantities and it is a popular souvenir to take home.

## 1950 – 1984

- 1950 Carl Elsener III takes over the company management.
- 1977 The Original Swiss Army Knife becomes an exhibit for design at the Museum of Modern Art in New York.
- 1978 Nasa orders 50 Officer Knives Master Craftsman for the Space Shuttle program.
- 1979 Transformation of sole proprietorship "Messerfabrik Carl Elsener" into the family-owned company "Victorinox AG."
- 1984 The company doubles its manufacturing and office space.

1989

1999

2014

2020

2020

## 1989 – 2020

- 1989** Market entry for “Watches” under its Swiss Army brand in North America with its former U.S. sales partner.
- 1992** Opening of the first sales subsidiary in Japan.
- 1994** Establishment of Carl and Elise Elsener Gut Foundation with the mission to support national and international charitable projects.
- 1999** Market entry for “Travel Gear” with the American TRG Group in St. Louis as licensee.
- 2000** Establishment of the Victorinox Foundation which holds 90 % of the share capital of Victorinox AG. The remaining 10 % belong to the non-profit Carl and Elise Elsener-Gut Foundation.
- 2001** Launch of a clothing line in the U.S. and opening of the first Victorinox store in Soho, New York.
- 2005** Acquisition of the long-standing Swiss knife and watch manufacturer Wenger SA in Delémont. Wenger remains an independently operating subsidiary of Victorinox.
- 2007** Carl Elsener IV takes over the company management and further expands Victorinox as a global multi-product brand. Establishment of Victorinox Swiss Army Fragrance AG.
- 2008** Opening of the first European Victorinox flagship store in London.
- 2011** Opening of the Swiss Knife Valley Visitor Center in Brunnen, Switzerland.  
Carl Elsener III gets inducted into the BLADE Magazine Cutlery Hall of Fame.
- 2013** Integration of the Wenger knife business into the Victorinox brand.
- 2014** Acquisition of the travel gear business from previous licensee and establishment of the new business unit Victorinox Travel Gear AG. Opening of a store at a prime location in the city center of Zurich.
- 2016** Opening of the Watch Competence Center in Delémont, Switzerland.
- 2017** Discontinuation of Apparel to focus on the core product categories. Production of 500-millionth “Original Swiss Army Knife”.
- 2018** Ground breaking for a new distribution center in Seewen, Switzerland. The investment of some CHF 50 million represents a clear commitment to the Schwyz location.  
125th anniversary of Wenger.
- 2019** Our products are now available at over 50,000 points of purchase worldwide, including 80 retail stores and shop-in-shops, as well as in our own flagship and brand stores. At each point of sale, the Victorinox brand experience is made tangible for our consumers.
- 2020** Opening of the distribution center in Seewen.  
Relaunch of Fragrance line.

# SWISS MADE

Victorinox is an authentic Swiss brand with a strong history and heritage. The Swiss place great value on practicality; they take pride in innovation, quality and expertise.

We are no different. We ourselves want authentic, high-quality goods so that is what we make. If we need new ideas to get there we innovate, we collaborate until we have them. We do the job right and finish it properly, so we can take pride in our work, so it speaks for itself.

We are the makers of the Original Swiss Army Knife, and our expertise goes back more than 130 years, with all pocket knives produced in our own locations in Ibach and Delémont, Switzerland. We control the quality of our knives from the moment we receive the steel in our factory through all production processes until the final product is ready. Every year we produce 10 million pocket knives, Original Swiss Army Knives. The Swiss Made label is valued all over the world for its reliability and high quality standards, which allows us to export 80% of our goods to over 120 countries.

We make sure our products are reliable so that consumers can trust they are getting exactly what they want. For the office, the kitchen, the long-planned trip or the hike all the way up a mountain. Swissness and the active lifestyle of Swiss people are included in all products, so that customers will feel confident they are ready to face every day's adventure.

## VALUES OF AN AUTHENTIC SWISS BRAND

We make products the way we would like to have them ourselves. This means in outstanding Swiss quality, with solution-oriented functionality. We believe in innovation for smart, creative and contemporary products and services. And our no-frills iconic design is based on simple, distinctive and clean lines. Our Brand Values are defined by our promise to our customers, which describes how they will benefit from our products.

### QUALITY

Uniquely robust, durable, and precisely manufactured in Switzerland\* with high-quality materials to meet premium standards with no compromises.

### FUNCTIONALITY

It is all about multifunctionality in a compact size to meet consumers' needs with attractive designs, materials, and a multitude of functions in different combinations for small and big adventures.

### INNOVATION

We continue and strive to develop new and sustainable manufacturing methods, materials, and processes by implementing emerging trends and new technologies.

### ICONIC DESIGN

It is a piece of Swiss history embossed with the cross & shield Logo and its distinctive red design to last forever.

\*not all products/accessories are made in Switzerland

# SUSTAINABILITY

The issues of environmental protection and sustainability are high priorities at Victorinox. In both our internal operations and those of our suppliers, the company makes sure to use resources sparingly and efficiently while employing environmentally friendly production methods. Here are some examples:

## **CLOSED-LOOP COOLING SYSTEMS**

Thanks to closed-loop cooling systems, the heat generated by our production facilities is fed into the pumps for the heating and warm water systems. In this way, our demand for fresh water is limited to emergency cooling.

## **55 % RECYCLED WASTE**

An integrated waste disposal plan for solid and liquid waste involves all employees in the recycling of resources and reduction of waste. Around 55% of waste is recycled.

## **PHOTOVOLTAIC SYSTEM**

A photovoltaic system installed on the factory building in Ibach has been producing power for the company's own use since April 2016.

## **1,300 M<sup>2</sup> OF SOLAR PANELS**

With the help of 1,300 m<sup>2</sup> of solar panels on the roof of the facility, around 220,000 kWh of energy are generated per year. This covers around 2% of the energy consumption of our factory. We also get hydroelectric power from nearby rivers and reservoirs, and the energy generated by production is used to heat the factory and 120 nearby homes.

## **RECYCLED PACKAGING**

Up to 90% of our cardboard packaging is made from recovered paper and 100% is made from chlorine-free bleached paper. The inks and finishes that we use do not contain any solvents or heavy metals.

## MORE DETAILS ON HOW WE RECYCLE STEEL AT VICTORINOX:

All the steel we use – the most important raw material in the manufacture of our knives – is 95% recycled. Around 600 tons of grinding sludge is then produced as a by-product in the processing of that steel. In order to ensure that this by-product can be disposed of properly, Victorinox has developed recycling facilities that are unique within the industry. The water contained in the sludge is absorbed and the steel particles are pressed into briquettes so they can be properly recycled.

**95% RECYCLED STEEL**

# STAINLESS STEEL

All pocket knife blades, springs and tools are made from stainless steel. Making a blade that offers optimum functionality and durability requires the right steel alloy. The steel must ensure excellent edge retention and sufficient resistance to rust, but should also be flexible so that it does not break during use.

The following steel alloys are used for Swiss Army Knives:

MATERIAL NO.	FOR	ABBREVIATION AISI	C (%)	CR (%)	MO (%)	V (%)
1.4110	blade	X 55 Cr Mo14	0.48–0.60	13.0–15.0	0.50–0.80	≤ 0.15
1.4021	spring	X 20 Cr13	0.16–0.25	12.0–14.0		
1.4031	tools	X 39Cr 13	0.36–0.42	12.5–14.5		0.1–0.2

All Victorinox alloys are in accordance with Regulation (EG) no. 1935/2004 for products that come into contact with food.

# SCALE MATERIALS

MATERIAL	DESCRIPTION	COLLECTION
<b>Cellidor</b> 	<p>Cellidor is an organic, thermoplastic cellulose ester that incorporates a high proportion of renewable natural cellulose material. Unlike traditional plastics, it is only partially dependent on fossil fuels. Components made of Cellidor exhibit an exceptional high-gloss finish with perfect depth effect. To improve abrasion and scratch-resistance, scales printed with a special promotional motif are treated with a protective coating.</p> <p>Max. usable temperature 65 °C.</p>	<b>Classic, Nail Clip, Companion, Swiss Card, Evolution, Original Swiss Army Knives</b>
<b>Acrylonitrile butadiene styren</b> 	<p>Acrylonitrile butadiene styrene is an amorphous thermoplastic. ABS plastics exhibit excellent toughness, notched impact strength, impact strength, flexural rigidity and surface hardness.</p> <p>Max. usable temperature 80 °C.</p>	<b>Classic, Nail Clip Companion, Swiss Card, Evolution, Original Swiss Army Knives</b>
<b>Polyamide</b> 	<p>Nylon is a term commonly used primarily in the U.S. to describe polyamides (PA). Polyamides are suitable for pocket knife scales because they exhibit better mechanical abrasion resistance. This also has benefits from a production perspective. Compared to high-gloss and smooth Cellidor components, they have a more structured surface.</p> <p>Max. usable temperature 90 °C.</p>	<b>Workman, Ranger, Hunter Pro, Garden Tools</b>
<b>Aluminium</b> 	<p>Alox scales are punched from aluminium, embossed and then anodised in a subsequent process stage. The Eloxal process uses anodic oxidation to create a protective layer. This layer of oxide is hard and protects the scales from damage and corrosion, up to a certain degree.</p>	<b>Classic, Original Swiss Army Knives, Pioneer, Hunter Pro</b>
<b>Walnut Wood</b> 	<p>Wood is a natural, renewable resource. The walnut wood used by Victorinox comes from European forests and is in full compliance with EU Regulation No. 995/2010 (the EU Timber Regulation). The wood of the walnut tree is very solid, tough and strong. Due to its different patterns every piece is unique.</p>	<b>Classic, Nail Clip, Evolution, Original Swiss Army Knives, Ranger, Workman, Hunter Pro</b>
<b>Olive Wood</b> 	<p>Wood is a natural, renewable resource. The olive wood we use at Victorinox is sourced from Italy and complies with the EU Trading Regulation (EUTR) 995/2010 on timber. The wood from the olive tree is very heavy and hard and has good density characteristics.</p>	<b>Wine Master</b>
<b>Micarta</b> 	<p>Micarta is a composite material where an absorbent carrier (cellulose, linen, wood, etc.) is soaked in synthetic resin. After the resin is cured, the Micarta is polished to create the desired finish. If different colored materials are used, the polishing produces a grainy effect. Micarta is a premium material and its waterproof and lightweight properties, plus its dimensional stability, make it the perfect material for the production of knife scales. In addition to its durable and robust characteristics, Micarta is very satisfying to the touch, with an elegant look that is pleasing to the eye.</p>	<b>Outdoor Master</b>

# PACKAGING

There are two types of packaging for pocket knives: Standard packaging and blister packaging.

## STANDARD PACKAGING

Standard packaging is defined as folded, sliding and gift boxes, as well as loose products. Standard packaging does not include hanging holes.

### EXAMPLE

## BLISTER

All blister packaging can be hung up thanks to the built-in hanging hole. The last part of the article number of products in blister packaging includes the designation “B1”.

### EXAMPLE

# FUNCTIONS AND APPLICATIONS

Be a step ahead in every situation with the Swiss Champ. The top model among the «Original Swiss Army Knives» combines high quality tools with 33 functions and an award winning design.

It is made of 64 individual parts and requires an astonishing 450 steps of fabrication in Ibach-Schwyz, Switzerland.

## SWISS CARDS

# SMART AND SLEEK SOLUTIONS FOR EVERYDAY CARRY

- Useful, clever tools in a credit card format
- Easily portable to take anywhere
- Slim and sleek design

The sleek, slimline Swiss Card Collection is all about multi-functionality in a compact size. Innovatively designed to fit discreetly into a bag, wallet or pocket, they can be used anywhere and every day. The slim design hides multiple surprises – they look like credit cards and have the same format, but are so much more. Staples such as scissors, tweezers and a pressurised ballpoint pen are combined with further practical functions ranging from a nail file to the LED light and magnifying glass.

## MEDIUM POCKET KNIVES

# THE ORIGINAL SWISS ARMY KNIVES

- Uniquely multi-functional knives for any situation
- Offering precision and reliability for life
- With iconic Swiss made design

This collection wears its original Swiss Army Knife design with pride. Over 120 years after the iconic knife's inception, each piece in the Medium Pocket Knife Collection still possesses the DNA of its ancestors – inspired functionality and impeccable reliability. From children's knives with rounded tip to multi-functional, tool-packed pieces featuring screwdrivers, pliers and wrenches along with the usual essential implements, this collection stays true to its roots while adding practical functions to meet the needs of modern life.

MEDIUM POCKET KNIVES

## LARGE POCKET KNIVES

# ADVENTURERS OF THE POCKET KNIFE WORLD

- Sophisticated tools to tackle everyday adventures
- Uniquely built to be robust and durable using top materials
- Offers safe and convenient handling

When adventure calls, this range answers with confidence and style. The Large Pocket Knife Collection is the must-have range for out-there jobs and a creative, intrepid lifestyle. A robust, large knife supports a steady grip with an ergonomic shape, and the trusty locking blade stays firm and true for smooth, safe cutting. To suit every need there's a range of attractive designs and materials, a multitude of functions in different combinations as well as various carrying options.

## OUTDOOR

# REAL OUTDOOR KNIVES FOR REAL OUTDOOR PEOPLE

- High-quality materials offer optimal sharpness
- Designed for ultimate strength and stability
- Developed and designed by experts

The Outdoor Collection embraces adventure, whether in the rugged wilderness or quiet countryside. With a selection of robust, durable knives there's something for every outdoor experience, from setting up camp to preparing game. For the ultimate in strength and control this range includes models with full-tang blades; and for versatility and easy portability there are pocket knives of superb functionality with comfortable handles. Wilderness wanderers and resourceful rambler alike will find their ideal partner for outdoor exploits.

## GARDEN

# PRECISION AND EFFICIENCY ACROSS THE RANGE

- Offers precision with every cut
- Excellent functionality for all gardening jobs
- Crafted from durable stainless steel

Success in growing fruit trees and ornamental plants often depends on making precise and expertly executed cuts that require sharp and top-quality tools. It's no surprise then that Victorinox knives have long been one of the top choices in garden centres and nurseries all over the world. The Garden Collection is designed for any horticultural task, from the sleek pruning knife with curved blade for effortless snipping, to the resilient floral knife with a smooth, straight blade to create stunning displays, and the budding knife with bark lifter for easy bud transplantation.

## PERSONAL CARE

# STAINLESS AND CLASSY FROM TIP TO TOE

- High precision tools to get the best result
- Designed for easy personal care
- Crafted from stainless steel and tempered glass

Straightforward, sleek, smart and sharp – the Personal Care Collection is a utilitarian take on essential grooming pieces. Crafted from resilient stainless steel and glass, each piece is designed to make self-care tasks simple while providing the highest quality. From neat nail clippers to a compact personal care set with tweezers, nail file and scissors, this range helps make a great first impression. For a sophisticated, polished look these are must-haves for any personal grooming on trips, for heading out to work or feeling confident on an evening date.

## ACCESSORIES

# DETAILS THAT MAKE ALL THE DIFFERENCE

- Practical and cleverly designed accessories
- Ideal way to enhance a pocket knife
- Clever carry options for handy and well-protected tools

The Accessories Collection is designed to perfectly complement any pocket knife or multi-tool. This wide range offers clever, stylishly designed pieces to enhance and highlight a well-loved knife. From sporty Paracord pendants and coloured toothpicks, lanyards and tweezers, to sleek leather belt pouches for safe storage, this collection takes care of tools and knives in true Victorinox style. A selection of handy books offering tips on outdoor skills, DIY and crafting ideas to make the most of every tool.

# TRUE, AUTHENTIC FANS: MEET OUR BRAND AMBASSADOR FELIX IMMLER

Our very own Felix Immler is a trained machine mechanic, social worker and nature educator who works full-time as a pocket knife educator for Victorinox. An avid fan of the outdoors and an advocate for teaching kids early about knife safety, he regularly posts pocket knife and bushcraft videos on his Youtube channel and is the father of three children.

# CORPORATE BUSINESS

# EVERYONE'S FAVORITE

# MULTITOOL: SWISS ARMY KNIVES

Our pocket knives are the perfect way to say “Thank you” to your clients. Put a smile on their face with a personalized edition of our little red pocket knife. Choose from laser engraving, 3D printing, etching and more to add your company’s touch to these iconic knives. Your clients and employees will thank you right back.

# WARRANTY AND SERVICE

## VICTORINOX GUARANTEE

Victorinox AG guarantees all knives and tools to be manufactured from first-class stainless steel, and offers a lifetime guarantee in respect of any defects in materials or workmanship (except for electronic components, for which the guarantee period is 2 years).

Damage caused by normal wear and tear, misuse or abuse are not covered by this guarantee. This guarantee gives you specific legal rights; you may also have other rights which vary from state to state or country to country.

## REPAIRS-SERVICE

- **If your customer is from Switzerland**, he/she may contact the local dealer or send us the tool, well packed, directly to our repair department.
- **If your customer is NOT from Switzerland, Germany, Austria, Belgium or Luxemburg**, he/she may contact a local Victorinox representative or local dealer. They will be glad to assist your customer. Possible mail delivery fees to and from Switzerland are included in the warranty.
- **If your customer is from Germany, Austria, Belgium or Luxemburg**, he/she may contact the local dealer or send us the tool, well packed, directly to our repair department.

## CLEANING AND CARE

For dirty and sticky blades, we recommend opening and closing the blades several times in warm water until they move freely. Allow to dry completely. Add a drop of oil between the blades and the tool casing or springs as well as other friction surfaces.

Mutli-tools should never be cleaned in a dishwasher.

**We recommend:**  
**Multi-Tool Oil (item number 4.3302)**

Key features:

- Maintains tool mechanics
- Protects against corrosion
- Meets NSF H1 requirements VICTORINOX AG
